

August 1, 2007

To Whom This May Concern:

While serving as the Chief Executive Officer for U.S. Canadian Minerals, a publicly traded company, I retained Ronald Serota as an auditor to assist with the completion of our audited financial statements and quarterly reports to be filed with the U.S. SEC. Since that time, I have now pursued other career opportunities and have formed several Swiss AG companies. I am a principal with a Swiss AG company named Minera Miramonte AG, a mineral mining and processing company with locations in Ecuador, and elsewhere. Mr. Serota serves as our corporate attorney. Miramonte has an assigned symbol of **MMD** and is traded on the Open Market on the Frankfurt Stock Exchange. We are proud to announce that our company has raised over \$3,000,000 since gaining a listing earlier this year on the FSE.. In addition, we have received further funding commitments in excess of \$7,000,000.

I am familiar with Mr. Serota's legal and accounting services in helping international companies with expansion both in the U.S. and in Europe. I recommend to other publicly traded companies that they seriously consider using Mr. Serota's European legal structure and program.

Sincerely Yours,

A handwritten signature in blue ink, appearing to read "Rendal Williams", with a long, sweeping underline.
